

## State Wide Summit

The purpose of the summit is to bring together interested public, decision-makers, and policymakers in the State discuss solutions related to FASD. The summit will also be utilized as a vehicle to provide education to those who attend and help raise awareness regarding FASD.

### Mission Statement

The mission of the Utah Fetal Alcohol Coalition is to prevent Fetal Alcohol Syndrome (FAS) and Alcohol Related Neurodevelopment Disorders (ARND) and to promote effective, life-long interventions for those affected by prenatal exposure to

## Keynote Speakers

### Teresa Kellerman

Teresa Kellerman is the Director of the FAS Community Resource Center in Tucson, Arizona, President of Fasstar Enterprises, and co-founder of FAS-WORLD. She is the adoptive parent of a young adult with Fetal Alcohol Syndrome and has cared for several foster children with Fetal Alcohol Spectrum Disorders. She is a certified FASD trainer for the National Association of Drug Court Professionals, the Native American Alliance Foundation, The Arc, and SAMHSA’s FASD Center for Excellence. Her popularity as a speaker is due to a combination of her personal experience and success as a parent, her extensive knowledge of current research, and her unique incorporation of original materials. Teresa is a member of the National Association of FASD State Coordinators and has presented workshops in the fields of education, medicine, and mental health. Teresa has produced a 16-unit college curriculum on FASD, and a two-day curriculum for parents of teens. An accomplished web author, Teresa maintains a website that reaches 50,000 visitors each month. Teresa shares a wealth of information on the internet at this website: [www.fasstar.com/fas](http://www.fasstar.com/fas).

### Dr. Susan Lewin

Dr. Susan Lewin is a geonatician and clinical geneticist who works at the University of Utah. Susan has a long standing interest in the diagnosis, national history and management of children exposed to alcohol prenatally as well as other genetic conditions with neurobehavioral components. She established the Fetal Alcohol Diagnosis and Management Program in Montana.
